APRIL 2020!

Our intention is to share with you each month upcoming community events, resources and inspirations, to lift your Spirit and feed your Soul! We believe that Love is the fabric of reality.

We share this to awaken, expand, and strengthen this Divine Consciousness in you, in all of humanity, and our planet.

Love- Jonathan & Shari

Greetings from Shari-

We have loaded up this newsletter with tons of resources and inspirations to empower and strengthen you at this time. Use what works for you, share what you know will assist others!

In this extra-ordinary time of global challenge/changing I Am very aware

we have entered the season of

Resurrection/Rebirth. All around me I watch with awe and deep reverence as Beauty re-emerges.

Crocus daffodil forsythia and hyacinth bursting forth, new buds of crabapple and cherry blossom peeking through, and all the uncultivated wild things like stinging nettle sprouting up once again from Pachamama (Mother Earth).

Everywhere there is

BEAUTY and POWER RISING UP!

We humans are of the Earth as well. We *are* in fact interconnected (this awareness is now dawning for

100+ people, as well as have the opportunity to pray for others. To join, simply email: drjonathancohen@gmail.com.

many who were asleep to it before). I Am witnessing the Power and Beauty of tremendous compassion, generosity, and creativity bursting forth from humanity. The unfolding of a new day, a new season, a resurrection/rebirth of Essence and Love. This virus is a catalyst for Freedom, a Liberator of old forms, routines, patterns that no longer serve. It is a huge invite to collectively shake off our old dead growth and debris, and embrace the new beginnings of our evolution. This experience is a global stimulator, a radical call to Heart, a profound initiation to open and share our Hearts more fully.

The natural world shifts from season to season seemingly effortlessly. Humanity tends to fear change. Often our first response to death (which is the requirement for rebirth) is to dread fear and resist it. In this forced slowing down and stillness we are given an opportunity to BE introspective, to get better acquainted with ourselves, to distill and connect to our Essence. Inevitably in such a process we stumble upon our shadows and wounds, and thus have a chance to let slough what impairs our vision and clarity in all areas of our life. As Patricia Robles (EraofPeace.org) reminds us- *the old enslavement codes and all cords attaching us to these cords have been victoriously and permanently nullified and transfigured in the inner realms. Those old doors are closed to humanity.* What we are now experiencing in the 3-D realm is a corresponding dismantlement and clean up process in action.

Instead of embracing this liberation experience with open curiosity, some are holding this time resentfully and fearfully. In reactivity, some are attempting to entrench further into the old reality. It is of course highly understandable that

*beautiful tresses

hyacinth flowers.*

*From the privacy of
the harem, the
virgin bud slips out,
revealing herself
under the morning
star,
branding your heart
and your faith
with beauty.*

*And frenzied bulbul
flies madly out of
the House of
Sadness
to unite with the
flowers;
its love-crazed cry
like a thousand-
trumpet blast.*

*Hafiz says, and the
experienced old
ones concur:*

*All you really need

Stories

and the Goblet of

from a place of fear/panic a desire to control things emerges in an attempt to feel safe. Loss and death are part of this unfolding, and being with oneself this intimately can be very scary and overwhelming if it has not been one's daily practice. Here is where sincere compassion extended to the frightened parts of ourselves and others goes a long way.

This extra-ordinary circumstance is giving all of us a chance to experience our vulnerability. For some it brings up sadness, some grief, some anger, some terror, some confusion and disorientation. All of these feelings make sense under the circumstances. So experience them, but do not get attached to them or to any victim consciousness. After letting the emotions rise up to be witnessed and cleansed, remember this:

YOU ARE NOT ALONE!

In fact, you are cherished, loved and held.

Every day millions of LightWorkers, LightKeepers, LightWeavers, all awakened and awakening humanity, pour forth our Love Power and Wisdom into the collective chalice of consciousness.

Expand into this Love, receive these gifts and experience our interconnectedness, and use the abounding resources available from local and global Sources. Discern what is healthy for your system to digest at this time and what is unhealthy, what creates Unity for you and what increases the illusion of separation.

On a daily basis I receive inspiring info about free or donation based online support/offerings from awake people and organizations around the world! This phenomenon has galvanized the Global Heart and the huge outpouring of Love Wisdom and Compassion has blown me away! I have witnessed my Beloved Jonathan create free support groups

Reflections from Jonathan-

We are in an incredible time with an opportunity to serve humanity in different ways. I invite you to look at the ways that you may wish to serve in to send out Light and Love to others. Some of you are on the front lines of health care and service to others. Thank you. And many of you are at home and you can do service even within your quarantine.

My belief is that if you are reading this newsletter you are one who has been on the path of growth and connected to Spirit and Source. Prayer comes in

different forms and may exist in a conversation with a friend or family member during which your shared Light raises their vibration.

Many who have not done their personal work are panicked, as their physical world has been the only world they know and it is scary to know that the physical world may never be the same. Your connection to Spirit (even though not spoken directly) may be a huge gift for them. Please share your Light and Hearts with those around you.

Love-
Jonathan
